For the opening of the Bridge is Dead, it may be possible for her or the Prince of Wales to attend the ceremony in their Majesty's name, and to witness those happy scenes in which the Queen herself is unable to participate. The Queen trusts that nothing may interpose to prevent the Prince and her Majesty's special desire that the young Prince, on whom the Crown of this empire will devolve, may have the opportunity of attending the ceremony, and from which this address has proceeded, and may become acquainted with a people in whose rapid progress towards greatness her Majesty has so much interest. In Great Britain, feel a lively and enduring interest.

FORWARD SPRING WORK NOW.

"Take time by the forelock" is a good

when the weather favors outdoor operations.

The spring, in all the northern part of our

country, is a busy season, and the farmer

is usually overworked with work.

Blacksmiths especially, leave every thing

but the ground as settled; the plowing is
